

AD PRO
COMMUNICATIONS LTD.

The country's largest **LED billboard network**, run by the people who own it.

Fifty-eight digital screens across ten cities, plus everything that surrounds them: static sites, transit, print, events and campaign production. One company, one accountable team, from the site survey to the played-spot log.

01 SELECTED CLIENTS

The brands that have trusted us with a junction.

Telecom, banking, FMCG, automotive, pharmaceutical, airlines, government and development, a selection of the 400+ brands who have run out-of-home with AD PRO.

window

We own the network. That changes what we can promise you.

01 You get the operator's price, not a reseller's

Most agencies buy the sites they sell you from somebody else. We built ours. There is no margin stacked on top of a margin, and no third party between your booking and the screen it runs on.

02 We can tell you what a site actually delivers before you book it

The traffic that passes it, the angle it is read from, the hours worth paying for. We know because we survey, build and maintain every one of them.

03 Everything happens under one roof

Site selection, structural work, printing, mounting, permissions and the monitoring photographs that prove your campaign ran the way it was sold. One contract, one point of contact, one company answerable for the result.

04 Small and medium budgets are welcome, and planned properly

We build campaigns that work at modest spend by buying the right hours on the right screens rather than the most screens. A brand with a focused budget is not a brand we treat as a small one.

05 Same-day creative changes on digital

A breakfast message and an evening one can run from the same booking with no reprint and no remount. Every slot is logged and reported at close.

04 WHO WE ARE

An advertising company that also happens to be a manufacturer.

AD PRO Communications Ltd. was incorporated in Dhaka in 2019 by a group of outdoor professionals who had spent their careers planning and buying media for Bangladesh's largest advertisers, and who were tired of the gap between what was promised and what actually went up.

Today we are an advertising solution provider with unified expertise across LED and static outdoor, print media, printing and packaging, indoor and outdoor branding, software, events and activation, logistics and digital

marketing. Our clients range from the country's heaviest out-of-home spenders to first-time advertisers.

Our mission is to keep our clients competitive with marketing that is proven rather than fashionable, and to make every encounter a customer has with your brand a good one.

Our vision is simpler still: increase the return our clients get on what they spend, and raise the standard of outdoor advertising in Bangladesh while we do it.

Ten services, one supplier.

Anything that carries your brand into the physical world, and the production behind it.

DIGITAL OOH

LED advertising & installation

The market-leading LED network in Bangladesh, indoor and outdoor, sold by the minute per day. We also design and install new LED screens at your own premises.

CLASSIC OOH

Billboard & static branding

Billboards, gantries, glass and building branding nationwide, including airport branding at Shahjalal International, Domestic, Chattogram and Cox's Bazar.

TRANSIT

Bus branding

A medium nobody can switch off. Full and partial bus wraps in the routes you choose, reaching passengers and passing traffic in one buy.

TRANSIT

Car branding

From a door decal to a full vehicle wrap, anywhere in the country, priced to the fleet you actually have.

MOBILE

LED covered van

A moving screen that goes where your audience is: markets, events, campaign routes. Cheaper per impression than most fixed media, and it brings full motion with it.

PRODUCTION

Printing & packaging

An efficient, flexible print procurement process built to bring your print and logistics costs down without losing the finish.

RETAIL

Trade & retail branding

Point-of-sale, shelf, packaging and trade material, the things a customer picks up and holds while deciding.

LIVE

Events & activation

From a shop opening to a national corporate event. We take the brief, design the idea, run the day and supply trained brand promoters.

BRAND

Outdoor & indoor branding

Storefronts, interiors, signage and wayfinding, the branding that works where digital and in-home advertising cannot reach.

DIGITAL

Digital marketing & creative

Social media, Google Display, web presence, logo and identity development, product photography and TVC production.

ABOVE THE LINE · BELOW THE LINE · THROUGH THE LINE

06 THE GROUP

Eight companies, so the work never leaves the building.

Each concern owns a part of the chain. Together they are why a campaign can be planned, produced, mounted and reported without a single subcontractor.

Sunny Coral Resort

Hospitality, Saint Martin's Island

Fifty-eight screens, in the places the country actually stops.

Our network is planned around traffic, not around what happens to be vacant. The sites sit at the junctions where Dhaka, Chattogram, Sylhet, Cox's Bazar, Rajshahi, Rangpur, Bogura, Cumilla, Feni and Narayanganj slow down, because a screen that is read for forty seconds in stopped traffic is worth more than one glimpsed at speed.

Every site has its own page with the photograph, the exact dimensions, the pixel pitch, the resolution, the facing and the on-air hours. Digital is sold by the minute per day with a minimum of 60 minutes, and every campaign closes with a played-spot log.

P5

Typical pixel pitch

1080_p

Standard screen resolution

60_{min}

Minimum daily booking

Brief to close report, in four steps.

01 Tell us the city, the dates and roughly the budget

Four pieces of information are enough to start. You do not need a media plan to talk to us. That is what we are for.

02 A written plan comes back inside one working day

Specific sites, sizes, minutes and an all-in cost. Photographs of every screen proposed, so you can see exactly what you are buying.

03 We produce, mount and go live

Artwork, printing, permissions, structural work and installation are all ours. You approve; we handle the rest.

04 You get proof, not assurances

Monitoring photographs from the site and a played-spot log at close, so the campaign you paid for is the campaign you can show your board.

09 CONTACT

Tell us the city and the dates.

Most enquiries get a written plan, with sites, sizes, minutes and an all-in cost, inside one working day.
